SUMMARY

B.Tech Information Technology graduate (2025, CGPA 7.02) with six months of production web development experience, a national hackathon win, and a SCOPUS-indexed research publication. Builds full-stack applications with React, Node.js, and cloud-connected infrastructure (AWS S3, Docker), with working knowledge of real-time systems (WebRTC, Socket.io) and application security fundamentals (JWT, OAuth2, RBAC). Seeking a full-time role in Full-Stack Development, Cybersecurity, or Cloud & Networks.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, SQL, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Node.js, Express

Databases: PostgreSQL, MySQL, Redis

Cloud & DevOps: AWS (S3), Docker, REST API design, Git

Security & Realtime: JWT, OAuth2, RBAC, WebRTC, Socket.io

Tools: Prisma ORM, JDBC

EXPERIENCE

Web Development Intern — Labmentix Edtech Pvt. Ltd.

Jun 2025 – Dec 2025

- Built and shipped front-end components and backend REST API endpoints for a live web platform as part of the engineering team.
- Implemented and debugged REST API integrations connecting front-end features with backend services.
- Collaborated within an Agile team using Git-based version control, sprint planning, and code reviews.

PROJECTS

Remote Work Collaboration Suite

2025 | github.com/Sami2905

- Architected and built a full-stack real-time collaboration platform supporting video calls, chat, and shared workspaces for distributed teams.
- Implemented WebRTC-based peer-to-peer video and audio streaming, resolving cross-network connectivity issues during testing.
- Built a real-time messaging layer with Socket.io, using Redis for session and presence caching.
- Containerized the full stack with Docker for consistent, repeatable local deployment.

Tech: Node.js, React, PostgreSQL, Redis, WebRTC, Socket.io, Docker

Nimbus Drive

2025 | github.com/Sami2905

- Built a cloud file-storage application supporting secure uploads, file organization, and shareable links.
- Integrated AWS S3 for object storage and designed a typed API layer end-to-end with Next.js and TypeScript.
- Modeled the data layer with Prisma ORM over PostgreSQL for structured, relational file and user metadata.

Tech: Next.js, TypeScript, AWS S3, Prisma ORM, PostgreSQL

Payroll Management System

2023 | github.com/Sami2905

- Built a desktop payroll system automating salary calculation and employee record-keeping.
- Designed a normalized MySQL schema and implemented CRUD operations via JDBC.

Tech: Java, JDBC, MySQL

EDUCATION

B.Tech, Information Technology — Vignan's Foundation for Science, Technology & Research

2025

CGPA: 7.02

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Computer Networks, Operating Systems, Software Engineering, Information Security, Cloud Computing

CERTIFICATIONS

NPTEL — Software Testing | Cambridge English — B1 | OPSWAT Certification | Simplilearn Certification | HackerRank Certification | Accenture Forage — Fortune 500 Virtual Simulation

ACHIEVEMENTS

- Winner, Myra Academy 24-Hour National Hackathon (2024).
- Co-author, SCOPUS & Web of Science indexed publication, presented at ICR CET-2025.
