SUMMARY

B.Tech Information Technology graduate (2025) with hands-on experience across full-stack development, cloud-connected applications, and application-security fundamentals. Shipped three end-to-end projects, completed a six-month web development internship, won a national-level hackathon, and co-authored a SCOPUS / Web of Science indexed publication. Seeking a fresher role in Full-Stack Development, Cybersecurity, or Cloud & Networks.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Java, React, Next.js, Node.js, Express

Databases & Infrastructure: PostgreSQL, MySQL, Redis, Docker, AWS (S3), Prisma ORM, JDBC

Security & Realtime: JWT, OAuth2, RBAC, WebRTC, Socket.io

Tools & Practices: Git, REST API design, Agile collaboration

EXPERIENCE

Web Development Intern — Labmentix Edtech Pvt. Ltd.

Jun 2025 – Dec 2025

- Contributed to front-end and back-end feature development for production web applications as part of the engineering team.
- Built and debugged REST API integrations, applying modern JavaScript framework practices to real production tasks.
- Collaborated using Git-based version control and agile team workflows.

PROJECTS

Remote Work Collaboration Suite

2025

Node.js, React, PostgreSQL, Redis, WebRTC, Docker

- Built a full-stack collaboration platform for distributed teams, including real-time video calls, chat, and shared workspaces.
- Implemented WebRTC-based video/audio streaming and Socket.io real-time messaging; containerized the stack with Docker for consistent deployment.

Nimbus Drive

2025

Next.js, TypeScript, AWS S3, Prisma ORM

- Developed a cloud file-storage application supporting secure uploads, sharing, and file organization.
- Designed the data layer with Prisma ORM and integrated AWS S3 for typed, end-to-end file storage.

Payroll Management System

2023

Java, JDBC, MySQL

- Built a payroll system automating salary calculation and employee record-keeping with a normalized MySQL schema via JDBC.

EDUCATION

B.Tech, Information Technology — Vignan's Foundation for Science, Technology & Research

2025

CGPA: 7.02

CERTIFICATIONS

NPTEL — Software Testing | Cambridge English — B1 | OPSWAT Certification | Simplilearn Certification | HackerRank Certification | Accenture Forge — Fortune 500 Virtual Simulation

ACHIEVEMENTS

- Winner, Myra Academy 24-Hour National Hackathon (2024).
- Co-author, SCOPUS & Web of Science indexed publication, presented at ICR CET-2025.
